

Nishant Singh

Backend Developer · Python & Django Specialist

Email: Nishantsingh1721@gmail.com | Phone: +91 73071 74395 | LinkedIn: linkedin.com/in/nishant-singh-137869275 | GitHub: github.com/nishant-singh21

SUMMARY

Backend Developer with hands-on experience building scalable REST APIs and microservices using Python, Django and Django REST Framework. Comfortable with HTML and CSS for frontend integration and debugging, with experience in asynchronous task processing using Celery and Redis, database design using MySQL, debugging, optimization, teamwork and communication.

SKILLS

- **Backend:** Python, Django, Django REST Framework, Django ORM, REST API Development
- **Frontend:** HTML5, CSS3, JavaScript, Bootstrap, Materialize CSS
- **Database:** MySQL
- **Infrastructure:** Redis, Celery
- **Tools:** Git, GitHub, Postman, VS Code
- **Other:** Debugging & Optimization, Teamwork & Communication

EXPERIENCE

Software Developer Intern - INTERNPE.in

July 2023 - August 2023

- Built and deployed 10+ responsive web pages using HTML, CSS, JavaScript, and Bootstrap.
- Debugged and optimized cross-browser rendering and page-load performance.
- Designed relational database schemas that reduced data retrieval time by an estimated 30% in prototype applications.
- Collaborated with designers and senior developers to keep deliverables on schedule.

PROJECTS

AI Moderation Microservice

Django, Django REST Framework, Celery, Redis

- Django microservice using LLM-based classification to detect and flag unsafe text and image content
- REST API endpoints for low-latency moderation checks
- Celery + Redis asynchronous background processing
- Real-time Slack and email alerts; hybrid rule-based + LLM scoring pipeline
- Configurable confidence thresholds; false-positive reduction and threshold tuning

Product Recommendation Engine

Python, Django ORM, NLP, TF-IDF, Cosine Similarity

- Content-based recommendation engine using NLP, TF-IDF vectorization and cosine similarity
- Cold-start fallback logic; Django ORM and REST API integration

Polling Application

Python, Django, HTML, CSS, Materialize CSS

- Secure authenticated access with session-based user tracking
- One-vote-per-user enforcement and duplicate-vote protection
- Normalized database schemas with real-time result aggregation

My Shop - E-Commerce Platform

Python, Django ORM, HTML, CSS, JavaScript

- Category-based product filtering, shopping cart and order tracking
- Product and inventory management with scalable catalog structure

- Django ORM-based database models

EDUCATION

B.Tech - Computer Science & Engineering — GN Group of Colleges, Greater Noida (2022 - 2026)

Higher Secondary (XII) — Kendriya Vidyalaya, Sonebhadra, U.P. (2021 - 2022)

Secondary (X) — Kendriya Vidyalaya, Sonebhadra, U.P. (2019 - 2020)

ACHIEVEMENTS

- 14+ public GitHub repositories covering Django APIs, recommendation systems and microservices
- AI/ML Certification - GeeksforGeeks (GFG)
